Aladdin®

... a little Aladdin History

ABOVE: Victor Samuel Johnson, Sr., 1882-1943, founder
Mantle Lamp Company of America in 1908. RIGHT: Bert Presba,
Aladdin Advertising Manager in the early years.

"Eighty years ago, a very small boy on a Nebraska farm read and re-read the Arabian Nights story of Aladdin in a room of darkness but for the flickering yellow light of an open flame "coal oil lamp." Several years later that boy, grown to manhood, found a lamp that erased the darkness with a soft white light and it was only natural that he named the lamp "Aladdin." An appropriate name, indeed, for this revolutionary boon to rural America seemed nothing short of magical in the intensity of its light.

For those who lit the lamp, trimmed its wick and cleaned its chimney, or just enjoyed its friendly glow, the Aladdin recalls many memories of golden childhood. It made learning possible for many boys and girls: made it possible for them to acquire knowledge that helped them realize their dreams and aspirations.

Later, Aladdin brought this white light to every kind of habitat in every corner of the globe. For many, it has been the only light of their entire life. Even when electricity comes, there are a loyal few who profess to use the electric light only 'to find the match' to light their Aladdin."

Victor S. Johnson, Jr.

Aladdin Magical Mantle System

Ordinary No. 2 size kerosene "flat wick lamps" produce approximately the light of six (6) birthday cake candles, all burning at once, and the light is emitted from the wick flame. *Aladdin magical mantle lamps*, on the other hand, produce over forty (40) candlepower or more than six times as much light.

Aladdin magical mantle light is created from the heat of the Aladdin blue flame burner, which incandesces or makes glow the mantle that sits atop the blue flame. Thus heat is transformed into soft, efficient, mellow light that is closest to sunlight, which is most pleasing to the human eye.

The beautiful *magical mantle light* from an Aladdin is an excitement to behold. The Aladdin is simply a pleasure to operate, too, and there is no pumping up required, and there is no noise, nor is there smoke or odor associated with flat wick lamps.

Indeed, Aladdin is the best non electric lamp you can find on the planet. Be prepared. Have your Aladdin ready, when the electricity fails. A match and a moment is all it takes to make your family feel safe.

Aladdin means: "Light where you want it--When you want it--Without the need for electricity. **THAT'S THE MAGIC OF ALADDIN!**"®

Lincoln Drape Lamps

*Light Where You Want It
When You Want It!*

The Ever Beautiful Lincoln Drape Lamps

Striking colors, combined with a classic design, have made the Lincoln Drape a favorite for generations. Available in three enchanting decorator colors, plus traditional clear glass. Aladdin Lincoln Drape Lamps were created in 1939 by fabled Aladdin designer, Eugene Schwartz. The most popular of the full-sized table lamps, the Lincoln Drape is an American favorite.

The beauty of *Aladdin Magical Mantle Lamps* is that you have Light Where You Want It - When You Want It. No electric power is required. Aladdin Lamps provide strong, dependable, white light for your home, lake cottage, mountain retreat or just about anywhere. Aladdin Lamps give you the freedom to go where you want and know that you'll have the comfort and security of Aladdin's warm light at your side.

The Aladdin Lincoln Drape Lamp can be purchased without a shade. A wide range of stunning glass and parchment shades can be added to achieve the effect sought by the most discriminating decorator.

Deluxe Brass Table Lamps

Beauty, Charm and Grace . . .

WORLD'S BEST KEROSENE OIL LAMP

MODEL K-102-301 with green
10" Ribbed, Cased overlay.

The Aladdin Deluxe Solid Brass Table Lamp is the finest kerosene oil lamp in the world today. Original styling dates back to 1907, when V. S. Johnson, Sr., founder of Aladdin, first introduced the Practicus lamp. Now, some 20 million magical mantle lamps later, Aladdin is still bringing joyful, and peaceful bright light to those without electrical power.

Aladdin light is a marvel to behold. Those who see it say it is magical, because the Aladdin mantle produces such a bright light without electricity. You can easily adjust its intensity from a charming candle glow to full brightness with just a simple turn of the burner knob.

Unlike ordinary flat wick lamps, the *Aladdin Magical Mantle* produces beautiful white light without smoke, soot or odor. In addition there is no noise associated with pressure lamps and no pumping is required, since the Aladdin burner system is gravity fed.

The Aladdin Deluxe Solid Brass Table Lamp is expertly crafted from heavy gauge brass with hand soldered joints to assure top quality. Each is submerged water tested, too, to prevent fuel leakage. Lamp font holds 1 1/2 quarts and burns for 18 hours on one filling. This is the best oil lamp you can purchase anywhere and we are proud to call it ALADDIN

A photograph of a family of four playing a board game together. A man in a red shirt holds up a traditional Aladdin-style hanging lamp with a white shade, illuminating the scene. A woman and two young boys are seated around the table, looking at the board game. The background shows a rustic stone wall.
